1915 H. S. CLASS PLANS REUNION

MEMBERS TO GATHER WEDNESDAY AND THURSDAY.

NORMAL STUDENTS PREPARING AFFAIR

History of Members Shows How Alumni Scatter—To Bridgewater for Picnic and Fishing Trip.

The 1915 graduating class of the Maryville High school is planning for a two-day reunion which will be held here Wednesday and Thursday, June 7 and 8. This will be the first reunion of the kind ever held here.

The members of the class living here have planned a reception which will be held at the home of Miss Mary Sewell, on Wednesday and on Thursday an all-day picnic at Bridgewater, south of Arkoe.

Invitations have been issued to the members living out of town and all are expected to attend. The following list of history about the class is interesting as it shows how in one year young people can be scattered and commence taking up the various pursuits of life.

The following students are attending the State Normal school and have planned the reunion. Misses Lucile Holmes, Marie Hopper, Olivette Godsey, Vi June Cadden, Ruby Irvin, and Doris Cummins and Messrs. Verne Pickens, Joe Farmer, Homer Scott, and Harold Sawyers.

The State University claimed Miss Blanche Messick, Roskin Hawkins, Fred Gray, Irwin Harris, Harris Messick, and Dean Humbert as students.

Miss Marie Murray is employed at the McDonald factory.

Miss Irene Westfall and Don Roberts are employed by the Haname telephone company.

Miss Kathleen Chittenden is employed by Montgomery Ward & company at Kansas City. Mr. and Mrs. C. M. Chittenden, her parents make their home in Kansas City now.

Ernest Moore is traveling for a picture firm.

Miss Ethel Stanton has just completed a successful school term near Arkoe and has been re-employed to teach the same school next year.

Miss Amye Clark is a student in the Maryville Conservatory of Music and will be graduated in instrumental and vocal in July.

"YEP" VILLA'S DEAD AGAIN

But U. S. Won't Believe It and Says He's Near Parral, Where Herrera Is Camped.

Special to The Democrat-Forum.

El Paso, June 5.—Fresh reports of the shooting of Villa by his own men are not credited here. The bandit leader is believed to be at Nalvaas, near Parral. He has received a wound from which he will be lame for life.

Herrera is in command of the Carranza forces which have established their headquarters at Parral, but he has made no effort to capture Villa.

Mexican Import Tax Raised.

Galveston, Texas, June 5.—It was officially announced here today that the Mexican import duty on all goods billed into Mexico would be raised 3 per cent on June 15. The decreases will operate strongly against American films doing business in Mexico.

Misses Nina and Mabel Merrigan of Clyde were the week-end guests of Mr. and Mrs. E. L. Ferritor.

MUST STAY AWAY 2 YEARS

Mrs. Emma Steren Guilty of Prostitution Has \$162.50 Fine Hanging Over Her.

Mrs. Emma Steren (alias Mrs. Nash), left Maryville Saturday afternoon with a \$162.50 fine hanging over her. The parole given by Mayor A. S. Robey provides that she must stay out of town for two years. Her children were sent to a brother. Mrs. Steren was fined \$50 and costs for prostitution by former Mayor U. S. Wright.

She was paroled on condition that she leave Maryville. Upon her return, she was arrested by Chief John Shonley and a double charge of breaking parole and prostitution. She pleaded guilty and was fined \$100 by Mayor Robey. She was permitted to leave town for two years and refused at first but after a few hours in the city jail, decided liberty was better.

Mr. Robey says that he will send prostitutes to the rock pile if necessary to stop their work here.

U. S. FARM CREDITS

HOUSE HAS PASSED FEDERAL LAND BANK BILL.

STATE LAW UNNECESSARY

Comparison of Other Nations' Rural Work Shows Great Work of Present Congress.

By W. C. Van Cleave.
Washington, D. C., May 21, 1916.—In my last letter I mentioned a number of very important bills recently passed by the house which helped to swell a magnificent total in the way of constructive legislation. No congress ever inaugurated and passed more bills of a far reaching and constructive nature than the last congress and the present one, unless it was the first congress. To the number formerly mentioned may be added the Philippine bill, the Porto Rican bill, the land bank or rural credit bill and several others.

Nothing has ever been done for the Philippines in the way of definite legislation and no definite form of government has been worked out for the Porto Ricans since the first make-shift legislation passed sixteen years ago. The present bill is intended to correct the errors and supply the deficiencies in the system under which they are working and to equalize justice to all classes.

The rural credit bill is one that should be of more than passing interest to the people of this country. It provides for an elaborate system for the operation of government land banks as outlined in these columns some time ago. It marks a distinct departure in the way of governmental aid to the farmers. While not a new thing to the world it is new to this country. Nothing of the kind was ever attempted during the long period when the Republicans had uninterrupted control of the government. The Democrats are trying to catch up and to give the country a real progressive government notwithstanding the many serious problems that arise to block the way.

In this connection it is interesting to note what was going on in the world when the Republicans controlled all branches of the government. They could only see the tariff as the remedy for all complaints. While they were prescribing this, the older countries developed the land bank idea as follows:

In Germany the "Landschaften" system, organized and controlled by the government, was providing loans to farmers at 3 1/2 per cent.

In France the "Credit Foncier," a government bank, was loaning on farms at 4 per cent.

In Russia the "Peasant Land Bank" (Continued on next page.)

SHOPPERS LINE UP GUILFORD TO VOTE

SCORES OF WOMEN RUSH TO HAINES BIRTHDAY SALE.

TWO YEARS OLD TODAY

Proprietor Comes From Family of Merchants, Father and Three Brothers Being "Dry Goodists."

Many scores of feminine shoppers "lined up" in front of the Haines dry goods store this morning to be on time at the opening of the second birthday party of the store.

The "party," which was the Haines second anniversary sale, marking the end of two years' business in Maryville, began at 9 o'clock, and none of the crowd were fashionably late. The first woman arrived at 6 o'clock and the second one about half a minute later. Being two years old, the sale will continue through two days—today and tomorrow.

The Haines store was opened in this city June 6, 1914. It has enjoyed a great patronage and is one of the liveliest business institutions in this town.

Began by Counting Eggs.
Harvey L. Haines, the proprietor, has been a "dry goodist" ever since the time when, by virtue of both size and limited knowledge of the multiplication table, his job was counting eggs the women brought to exchange for gingham and cotton bats in his father's store.

H. C. Haines, father of the Maryville merchant, opened up a store at Bigelow fifty years ago. At this time Bigelow was but little more than a trading post.

Nine years later he moved his business to Sabetha, Kan. While buying and selling goods Haines, Sr., had another plan—dear to his heart—that was to see his three sons successful merchants.

Three Brothers Dry Goodists.
A few years ago Mr. Haines, known everywhere as one of the solid merchants of Kansas, retired from active business with all of his hopes realized.

Each of the three Haines brothers is now in business, owning and operating his own store. Charles S. is at Sabetha, Kan., with the store started by his father; F. H. at Eldorado, Kan., and Harvey L. in this city. While the three Haines store operate separately, their buying is done in a co-partnership, giving them a decided advantage in the wholesale markets.

No California for H. L.
When he was 23 years old Harvey, with his brother Forrest H., started in the dry goods business at Eldorado, Kan. Harvey remained there twelve years and then sold out his half to his brother.

Shortly after this he went to California and started in the wholesale linen business. But the oranges and sunshine of California brought only gloom to the Missouri-bred and Kansas-reared, so after two years the linen business went to a new owner.

Maryville was made the Mecca of returning, and like all real stories, "everyone has been happy ever since."

Held Weekly School Night.
One thing which has been a vital part in the success of the Haines store is the co-operation of the employer and employees.

Every Monday evening a school of instruction is held. To this conference each clerk brings his or her perplexities.

The new goods, harmony of colors, changes of fashion, better and quicker service, all things for the mutual benefit of customer and store are discussed.

Their social spirit is equally evident. As a company the employees are known as the "Haines Bunch."

Frequent outings and pleasure trips participated in by "Boss and Bunch" make working hours more pleasant for the merry making. The store colors are red and white and are always (Continued on page 2.)

WASHINGTON TOWNSHIP MEN WANT ROAD BONDS.

PETITION ASKS \$25,000

County Court Will Set Date This Week for Election in Southeast Nodaway.

A petition from Washington township was filed with the county court this morning requesting the court to set aside a day to vote on the proposition of issuing \$25,000 in bonds for roads and bridges. As the petition contains more than the required number of twenty names of the taxpayers of that township the court will call the election.

"CRAZY ON RELIGION"
GEORGE MILLER, PIANIST, RANTS IN CITY JAIL.

Prays, Sings and Preaches Intermittently—Arrested for Drunk Last Friday by Marshal.

"George Miller, pianist," reads the owner's title in the front of a diary book in his pocket. He is sitting or lying in a cell at the city jail, "crazy with religion." The book also requests that Fri. Wilhelmmina Oesterreich, Fillister str. 14-15, Berlin, Germany, be notified in case of illness or accident.

Miller was arrested by the city authorities last Friday on the supposition that he was drunk. Subsequent actions have convinced them, however, that he is insane. His diary begins early in this year at Provo, Utah, and the last entry was made at Wichita, Kan., May 24.

Frequent references are made in the book to the fact that he was not feeling well or that he was unable to find work. It is undecided just at this time what will be done with him as the county does not want to pay for an insane patient in a state hospital when he is a transient.

Considerable amusement is caused upon watching him and listening to him, even if one pities his condition. He seldom is able to get over a personal pronoun in a sentence without repeating it many, many times. He has many sentences like "The Lord God has promised me that I shall be greater than the sun," which he repeats often with tears or great sighs.

He appears to be about 40 years old, has blue eyes and light hair. He is small and slim.

MARYVILLE WINS FOR MRS. MOBERLY

FEDS SCORE 4-0 IN RETURN GAME WITH STANBERRY.

BLOOMER GIRLS NEXT PICKERING WOMAN IS 77

Home Boys to Play Bostonians Tomorrow Afternoon—Keegan Bros. Team Billed for Sunday.

Last year's habit of alternating victories with the Stanberry Red Sox seems to have been started again this year by Maryville's team.

The Maryville Feds went to Stanberry yesterday to play a return game with the Stanberry Red Sox. Contrary to the expectations of the Red Sox, the Maryville boys romped away with the game 4-0. The Feds showed quite an improvement over the game they put up here last Sunday when they were beaten by the Red Sox 5-0.

Manager Cleve Funk used a changed line-up yesterday and it worked well. Musser, catcher, missed the train and did not reach Stanberry. Stephens, who has been playing right field, took his place and caught a fine game. Three men attending the Normal were used; Vaughn at second, Ferguson in center field and Durham in right.

The team pitched a great game, allowing but five hits. The Feds played errorless ball behind him. The Red Sox got three hits in one inning but could not score. In addition to pitching good ball Theiman drove in most of the runs with two hits, one of them a two-bagger. Maryville got nine hits off of Hawthorne, the Stanberry pitcher. Cowells, who vies with Walker for the honor of being Stanberry's leading batter, was struck out three times by Theiman.

The Feds will play the Boston Bloomer girls here tomorrow afternoon. The Bloomers were to have played at Stanberry tomorrow but on account of a carnival there the grounds could not be obtained. Manager Funk was then offered the game and accepted. The Bloomers have a fast team, having won many games while on their tour. Next Sunday the fast Kegan Bros. team of St. Joseph will play the Feds here. On Thursday, June 15, "Human Fly" day the Stanberry Red Sox will be here for another game.

LONDON CLAIMS VICTORY

British Assert German Cruiser Fleet Is Reduced and That Teutons Lost 19 Ships.

Special to The Democrat-Forum.

London, June 5.—Late official reports indicate that the German cruiser fleet has been reduced to three or four units as a result of the Jutland battle last week. At least eighteen of the Teutonic men of war are believed to have been destroyed.

The list includes two battle ships, two dreadnoughts, two cruisers and three light cruisers, nine destroyers and submarines. A Copenhagen dispatch indicates that the cruiser Seydlitz may have been lost. The message also says that British warships are pursuing several ships which were badly damaged.

T. R. MAY NAME ANY BUT HIMSELF

THE OLD GUARD DRAWS LINE AT THAT POINT.

HUGHES MANAGER IN VICTORY PREDICTION

Hitchcock Says Justice Will Get More Votes Than All Combined on First Ballot.

Special to The Democrat-Forum.

Chicago, June 5.—Real conferences to settle upon a presidential candidate commenced today with the Old Guard carefully canvassing the situation. Justice Hughes loomed up today even more prominently as the leading candidate.

Unless something is done to head him off, he will have more than 200 votes on the first ballot, which is almost sure to insure a majority vote of the convention and the nomination.

Progressive leaders admitted today that they are considering the Hughes question seriously but they are awaiting an answer to what is virtually an ultimatum to the supreme court justice, declaring that he must make his position plain on all the issues of the day before they will accept him.

Hughes Will Say Nothing.

Washington, June 5.—Roosevelt followers have failed to make Justice Charles E. Hughes declare himself on the policies of Teddy or on the issues of the day. The justice said that his final word was given last week when he declared he had no further comment of any kind to make.

Hitchcock Makes Big Claim.

Chicago, June 5.—Frank Hitchcock, manager of the Hughes campaign, made the direct claim today that the justice will have more votes on the first ballot than the combined strength of all the favorite sons and all candidates. He adds that Hughes' nomination is inevitable.

Make Teddy An Offer.

If Roosevelt will agree to throw the strength of the Progressives to a straight Republican, either a favorite son or a dark horse, he can name the presidential candidate but he cannot have the nomination himself under any circumstances.

The Old Guard does not desire to nominate Hughes, if it can be avoided. This information followed closely on a sharp warning by Perkins, Moose leader, that while he is for harmony, he would pay too great a price for it. A contesting Roosevelt delegation from Texas withdrew today, announcing that the action is in the interest of party harmony.

Kansas Strong for Hughes.

WHY MEN CHEW TOBACCO

It's the Only Way That Real Tobacco Hunger Can Be Entirely Satisfied

"OLD KENTUCKY" IDEAL CHEW

Since tobacco was first introduced to civilization, nobody has ever discovered so supremely satisfactory a way to get all the flavor and enjoyment out of it as chewing it. And no other form of chew can give you the hearty, wholesome, juicy flavor that you get from a delicious high-grade plug tobacco like Old Kentucky.

The secret of the greatest chewing satisfaction lies in the selection of your chew. Among plug tobaccos the brand that gets the most enthusiastic endorsement is undoubtedly Old Kentucky. The reason for this is not hard to find.

Old Kentucky is made exclusively of ripe Kentucky Burley—the most richly flavored chewing tobacco that grows. Still more, only the very choicest of all the Burley leaf is used for Old Kentucky.

This choice leaf is selected with the most painstaking care, is stemmed by hand, is thoroughly washed free of all foreign matter and is pressed into plugs so slowly that not a drop of juice or an atom of flavor escapes. Moreover, Old Kentucky is made under the most rigid, cleanly and sanitary conditions.

The result is a sweet, mellow, luscious, satisfying chew that cannot be duplicated.

When You Want Something Particularly Nice—

You can always depend upon K.C. not to disappoint you. The double raise makes doubly certain—nothing is left to "luck." If the batter is a little thin, K.C. will raise it light and feathery and it will be all the better. Jarring the stove or turning the pan around makes no difference—K.C. sustains the raise until baked.

When there's a birthday or wedding cake to bake, or refreshments for reception or party to provide, take no chances—

Use K.C.

We are authorized to announce the candidacy of W. A. Burks for sheriff of Nodaway county, subject to the action of the Democratic primary, August 1.

Announcement.

We are authorized to announce the name of W. R. Littell of Tarkio, Atchison county, Missouri, as a candidate for the office of state senator of the First Senatorial district of Missouri, subject to the action of the Democratic voters of said district at the primary election, to be held on the first day of August, 1916. Atchison county has not had a place on the Democratic senatorial ticket in this district since 1888.

Mr. Littell was recently unanimously endorsed for this position by the Democrats of Atchison county, in convention assembled, and is the chairman of the Atchison County Democratic Central Committee.

U. S. FARM CREDITS

(Continued from page 1.)

was lending to farmers at 4 per cent. In Switzerland land credit associations, operated by the state, were taking care of the needs of the farmers at 3 and 4 per cent.

And in Denmark, Great Britain, Sweden, Japan and Canada, by various plans, the governments had devised means whereby the financial requirements of the farming population were provided for on a fair basis.

If the federal act becomes a law, as it undoubtedly will, it will make the proposed Missouri law a useless luxury. There will be little need for a federal and state law both aimed at the same target but loaded differently. If there ever is a need for a state law, it should be made to conform to and harmonize with the federal law or to correct its defects after they are developed by actual operation. The bill passed by the house of representatives is the result of more than two years of investigation and consideration by the committees having the subject under their jurisdiction, and is believed by these men to be fully equal to the demands.

FOR CONVENTION SPECIAL

Monroe Club Desires Northwest Missourians to Go With Them From St. Joseph June 13.

The Monroe Club of St. Joseph will charter a special train for the purpose of allowing those who wish to attend the National Democratic Convention at St. Louis the best accommodations possible.

This train will leave St. Joseph at 9 o'clock the morning of June 13, the day before the convention opens, and will reach St. Louis before 7 o'clock the same evening. The train will be fully equipped and decorated.

The club hopes to make this a Northwest Missouri affair and would like to have a representation of at least 500 persons. Those desiring reservations should send communications to the Monroe Club at St. Joseph, or to Richard Duncan, L. C. Gabbert, Police Chief, Clouser, Senator Lysaght or George Akers of the committee.

ANOTHER ROACH "REASON"

Fourteenth Child of Secretary of State Is Tenth Daughter—Is For Father for Governor.

Jefferson City, June 5.—A girl baby weighing eleven and a quarter pounds came to the home of Secretary of State Cornelius Roach yesterday. This is the tenth girl born to Mr. and Mrs. Roach, and the fourteenth child. Mr. Roach said tonight that if ten children constituted a good argument for the nomination for secretary of state, he believes fourteen constitute a better one for nomination for governor. In his last campaign Mr. Roach sent a group photograph of his children to the voters, calling the children the "thirteen reasons" why their father should be elected.

FARMER FEELS FINE

THE STATE CROP REPORTS ARE OPTIMISTIC.

WHEAT DROPS TO 57.2

But All Grasses Are in Good Shape and Stock Brings High Prices.

Columbia, Mo., June 5, 1916.—With live stock of all kinds commanding good prices and with an abundance of grass, the Missouri farmer is in fine spirits despite a partial wheat failure. "For," says the June crop report issued today from the office of the State Board of Agriculture, "the Missouri farmer never puts all his eggs in one basket." The report follows:

The latter half of the month of May, except a few days near the close, brought favorable farming weather. However, during the month, in practically every section of the state except a few counties in the south central and southern parts, heavy rains interfered with farming. Up to May 20 there was much cool, cloudy weather. At Columbia the total rainfall was 5.21 inches, as compared with 4.86 inches as normal.

Corn—Correspondents report 82 per cent of the Missouri corn crop planted, the progress of planting by sections being as follows: Northeast, 68; northwest, 74; central, 84; southwest, 92; southeast, 90. One year ago 91 per cent of the crop had been planted. The 10-year average June 1 planting is 86 per cent. The present stand of corn, as compared with normal, is 89 per cent, being lowest in the northwest,

where excessive rains and overflows have prevailed in Nodaway, Atchison, Andrew and other leading corn counties. Taking the state as a whole, the stand is better than had been hoped for under the adverse conditions. Good seed is telling. In the southeast section some corn is knee high. Where rains have interfered with cultivating, early corn is getting weedy. Condition of growing corn, for the state, is 84. By sections it is: Northeast, 82; northwest, 73; central, 88; southwest, 89; southeast, 89. Soil condition is 84. An unusual amount of labor has been required in preparing ground for planting. A preliminary estimate as to acreage places it at 101.6 as compared with 7,218,500 acres in 1915. Only the northeast section shows a decreased acreage—a loss of 3 per cent.

Wheat—The Missouri wheat crop continues to show losses. Present condition is 57.2. One month ago it was 62.8. On June 1, 1915, condition was 69.8. Ten-year average is 77.7. Hessian fly and winter killing are largely responsible for what in some counties amounts to almost a total failure. In some of the leading wheat counties, such as Franklin and St. Charles, conditions are very bad. Many correspondents throughout the state report wheat thin on the ground and heading out poorly. Harvest will be from a week to ten days later than usual. Acreage, as well as yield, will be small. The original acreage of 1,559,200 was 17.3 per cent less than for the preceding year. Correspondents estimate that 19 per cent of this has been planted to other crops or will not be harvested. Based upon present estimates the Missouri wheat crop for 1916 will amount to only about 15,000,000 bushels.

Oats—The oat crop, with a favorable season from now until after harvest, will be the best that Missouri has had for several years. Present condition is 88, as compared with the 10-year average of 74.6. By sections, condition is: Northeast, 92; northwest, 90; central, 91; southwest, 86; southeast, 81. Acreage is about 1,050,000, or practically the same as that seeded in 1915.

Other Crops—Meadows promise abundant yields. Clover condition is 89.2; timothy, 88.6; alfalfa, 84. Many correspondents report the first crop of alfalfa as having been harvested. White clover was never so abundant in meadows and pastures, and complaints of loss of cattle from bloating are common. Condition of rye is 84; barley, 83. Tobacco acreage as compared with last year is estimated at 84.2 per cent; cotton, 100; flax, 55; potatoes, 98. The outlook for apples continues fairly good, being 70 for the state. Southwest Missouri is harvesting a bumper crop of strawberries of excellent quality. In fact, berries are plentiful throughout the state. Cherries and other small fruits do not promise heavy yields. Peaches are placed at 25 per cent, being highest in the southeast section. Pastures are fine, condition being estimated at 98.8.

Live Stock—Live stock of all kinds is doing well. So far there have been no files to bother. About the only complaint is that there is not sufficient stock to eat the grass. There are few cattle on feed, feeding operations being but 75 per cent of a year ago. Stockers and feeders are also reported scarce. Hogs show practically the same decrease. There are but few complaints of cholera. With

GIVES AID TO BLIND

New Head of Ohio School For Years Has Helped Sightless.

HAS AN EXCEPTIONAL CAREER.

C. F. F. Campbell Sacrifices \$2,000 Yearly to Accept an Opportunity to Continue Work—Much is Expected From Him Because of His Many Achievements.

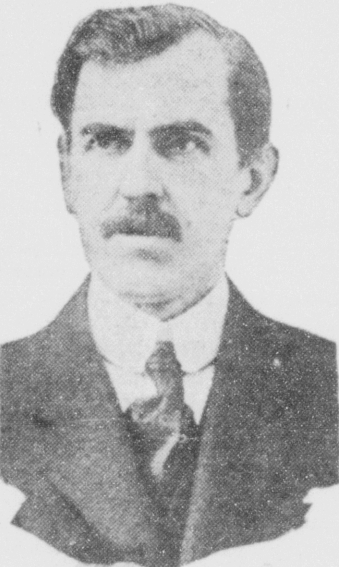

Columbus, O.—Charles F. F. Campbell, internationally known, has assumed his duties as superintendent of the State School For the Blind, to which office he was recently unanimously elected by the state board of administration to succeed H. C. Maurer, resigned. This came after he successfully completed nearly six years of executive secretaryship of the Ohio commission for the blind.

Mr. Campbell himself is also secretary of the commission, an unsalaried position, succeeding Edward G. Pease of Dayton, resigned. By virtue of being superintendent of the state school Mr. Campbell also is an ex officio member of the commission.

This arrangement made Mr. Campbell head of the juvenile work for the blind and also made it possible for him still to continue participation in the work for the adult blind. It is for this reason that he was willing to resign a \$3,500 position for one paying \$1,500. He said:

"It was not a question of seeking any particular position, but rather that of accepting the greatest opportunity in the United States to do the largest amount of good for the blind in any state."

Mr. Campbell has had an exceptional career as a worker in the interests of the blind. He is the son of the late

CHARLES F. F. CAMPBELL.

Sir Francis Campbell, founder and for forty years director of the Royal Normal College and Academy of Music For the Blind at London.

The son received his kindergarten and grammar school education side by side with blind pupils. After graduation from the Massachusetts Institute of Technology in 1901 he took a course in pedagogy and music in the University of Leipzig. He then became an instructor in his father's school and has given his life to the blind, serving with the New York and Pennsylvania commissions.

In 1903 Mr. Campbell was asked to organize the first state association for promoting the interests of the blind in America. The following year he opened what he called an "experiment station for the trade training of the blind." In this interesting place he discovered some new industries for the blind, which today are being followed by the sightless in most of the states. During this time—in fact, before graduating from Boston "tech"—he had begun giving illustrated lectures to show how the blind can become more useful citizens in the economic world. One of the chief objects of these lectures, which took him all over Massachusetts and sometimes into Maine and New York, was to arouse the public to the necessity for creating some practical agency for aiding that considerable group of the blind who lose their sight in adult life.

Unquestionably Mr. Campbell's efforts were largely responsible for the establishment in 1906 of the first permanent state commission for the blind, and not unnaturally he was given an important position with the Massachusetts commission.

In 1910 the Pennsylvania Association For the Blind, with headquarters in Pittsburgh, was established, and Mr. Campbell was asked to start the work. Inside of eighteen months the Ohio state commission for the blind urged him to come to Ohio to reorganize its work. When he arrived in October, 1911, the annual budget was less than \$3,000. At the end of 1915 he increased it to \$90,000, including the sales of the work of the blind. As the result of this kind of work many predict that he will quickly bring his institution up to the same standard of efficiency that he has achieved with other organizations with which he has been connected.

One Cent For Smashed Nose.
Memphis, Tenn.—A jury has decided that 1 cent was damages enough for having a fellow's nose smashed in a fight and awarded a verdict in favor of George Holland against T. P. Nugent. He asked for \$2,500 as damages.

W. L. KIDD, BEDISON, HURT

Knocked From Fence by Hog Today and Was Still Unconscious This Afternoon.

William L. Kidd of Bedison met with an accident this morning while helping his neighbor, Charles H. Roach, weigh some hogs. While standing on a fence, a large-sized hog ran under the fence, knocking Mr. Kidd off and causing him to fall on his face to the ground. He was knocked unconscious and is still in that condition this afternoon.

Mrs. White had been a resident of that community for thirty years, coming from Ohio. The funeral will be held tomorrow at 2 o'clock. Two daughters survive. They are: Mrs. Ezra Wilson of Parnell and Mrs. Geo. Hagin of Sheridan.

WAR OF 'COLONELS' THREATENS GEORGIA

Real Ones Are Up In Arms Against Use of Complimentary Title In That State.

Atlanta, Ga.—A new order of things has come in Georgia and with it no less startling a radicalism than an attempt to restrict the title of "Colonel," which for generations has been an institution. Those called "Colonel" rightfully have risen in protest against the designation being applied to any one who is not justly entitled to it, and men who have been addressed as "Colonel" unchallenged for many years are up in arms against this attempt to deprive them of their "birthright."

The fight waxed warm, and the end is not in sight, for there is no way to prevent a man being called "Colonel" if his friends and the admiring public choose so to address him. Meanwhile newspapers are being besieged with communications from real "colonels" asking that the news staffs use discretion in the use of the title. All the while "pieces for the paper" concerning pseudo "colonels" reach the editors.

It is likely that Georgia has more "colonels" than any other state. In addition to the real colonels who have survived the civil war and the Spanish-American war and the colonels active and retired of the national guard and regular army, it has been the custom of governors for time immemorial to appoint upon entering office a staff of prominent men in all parts of the state with the title of "colonel."

SAVED HUSBAND'S LIFE.

Woman Was Going to Have Him Arrested, but Changed Her Mind.

Dagsboro, Del.—Instead of bringing an officer to arrest her husband for beating her, Mrs. John Burton of near Omar hurried back with a physician when she learned that during her absence he had attempted to commit suicide.

Burton and his wife had trouble, and in the fight the wife declares that Burton kicked and choked her badly. She hitched up the horse and drove to Dagsboro to have her husband arrested when she was greeted with a call to the telephone shortly after she had arrived. It was a neighbor to tell her that Burton had just swallowed a quantity of concentrated lye and was at the point of death.

Securing a physician, the woman raced the horse back and arrived in time to save the husband's life.

COURT UPHOLDS MULE.

Kicking Justifiable After Licking, Kentucky Tribunal Rules.

Frankfort, Ky.—The kicking propensity of a mule is a matter of common knowledge, held the court of appeals here in reversing a verdict of \$500 damages awarded J. M. Pratt against the Consolidated Coal company. From the testimony it appeared that Pratt, an employee of the company, was kicked by a mule when he struck the animal with a whip as he stooped behind it.

"The mule would have been untrue to itself and false to every tradition of its breed if it had kept its heels on the ground," said the court, "and an employee cannot court danger by inviting a mule to kick him and then recover for consequent injuries."

FELT SAFE IN JAIL.

Man With \$1,000 Applied For Lodging at Ballston Spa.

Ballston Spa, N. Y. — Undersheriff James Betts had the surprise of his life when Peter Turton applied at the county jail for lodging and handed over \$1,000 and securities for safe keeping. Turton insisted on staying in jail overnight and agreed to be arraigned as a prisoner in the police court in the morning.

Turton said he was afraid to stay at hotels for fear of being robbed. In court Magistrate Groat allowed him to go without exacting a fine from the "roll" of which Undersheriff Betts was guardian.
